2.1.6. Тексты для чтения и перевода

THE RUSSIAN FEDERATION

The Russian Federation is the largest country in the world. It occupies about one-seventh of the earth's surface. It covers the eastern part of Europe and the northern part of Asia. Its total area is about 17 million square kilometers. The country is washed by 12 seas of 3 oceans: the Pacific, the Arctic and the Atlantic. In the south Russia borders on China, Mongolia, Korea, Kazakhstan, Georgia and Azerbaijan. In the west it borders on Norway, Finland, the Baltic States, Belorussia, the Ukraine. It also has a sea-border with the USA.

There is hardly a country in the world where such a variety of scenery and vegetation can be found. We have steppes in the south, plains and forests in the midland, tundra and taiga in the north, highlands and deserts in the east.

There are two great plains in Russia: the Great Russian Plain and the West Siberian Lowland. There are several mountain chains on the territory of the country: the Urals, the Caucasus, the Altai and others. The largest mountain chain, the Urals, separates Europe from Asia.

There are over two million rivers in Russia. Europe's biggest river, the Volga, flows into the Caspian Sea. The main Siberian rivers – the Ob, the Yenisei and the

Lena – flow from the south to the north. The Amur in the Far East flows into the Pacific Ocean.

Russia is rich in beautiful lakes. The world's deepest lake (1,600 metres) is Lake Baikal. It is much smaller than the Baltic Sea, but there is much more water in it than in the Baltic Sea. The water in the lake is so clear that if you look down you can count the stones on the bottom.

Russia has one-sixth of the world's forests. They are concentrated in the European north of the country, in Siberia and in the Far East.

On the vast territory of the country there are various types of climate, from arctic in the north to subtropical in the south. In the middle of the country the climate is temperate and continental.

Russia is very rich in oil, coal, iron ore, natural gas, copper, nickel and other mineral resources.

Russia is a parliamentary republic. The Head of State is the President. The legislative powers are exercised by the Duma.

The capital of Russia is Moscow. It is its largest political, scientific, cultural and industrial centre. It is one of the oldest Russian cities.

GREAT BRITAIN

The term Great Britain is used in different meanings. It may indicate a geographical object (the island of Great Britain) or a political object (England, Scotland and Wales in combination). Very often people use it in the meaning of the whole United Kingdom (including Northern Ireland as well) and in this meaning it will be used in this topic.

Geography

Great Britain is situated near the north-west coast of continental Europe. It is separated from the mainland by the North Sea and by the English Channel. The whole country occupies the island of Great Britain, the part of the island of Ireland, and many smaller islands.

Main Cities

London is the capital and most populous city of England and the United Kingdom. The state's government is situated there. The capitals of Scotland, Wales and Northern Ireland are Edinburgh, Cardiff and Belfast. The biggest cities of the UK also include Manchester, Glasgow, and Liverpool.

Government

Great Britain consists of four countries: England, Scotland, Wales, and Northern Ireland. Together, they form one state – the United Kingdom. It is a constitutional monarchy with a parliamentary system.

Presently the monarch is Queen Elizabeth II. She is the head of state, but the biggest political power belongs to the prime minister (currently Theresa May) and Parliament. The latter consists of two houses: the House of Commons and the House of Lords.

Economy

Great Britain is a developed country with a market economy, the world's fifth-largest by nominal GDP (gross domestic product). The most significant industries of Great Britain are the automotive industry, the aerospace industry and the pharmaceutical industry. The agriculture of the UK is highly mechanized and efficient

(satisfies 60% of food needs with only 1.6% of the labor force).

Population

Great Britain is the 22nd-most populous country, with the population of 65 million people. They are people from various ethnic groups, including the English, the Scotch, the Welsh, the Irish, the Indian, the Chinese, various African ethnicities etc.

Climate

Great Britain has a temperate climate with plentiful rainfall. The temperature varies from -11 °C to 35 °C.

EDUCATION IN BRITAIN

In England and Wales compulsory school begins at the age of five, but before that age children can go to a nursery school, also called play school. School is compulsory till the children are 16 years old. In Primary School and First School 53

children learn to read and write and the basis of arithmetic. In the higher classes of Primary School (or in Middle School) children learn geography, history, religion and, in some schools, a foreign language. Then children go to the Secondary School.

When students are 16 years old, they may take an exam in various subjects in order to have a qualification. These qualifications can be either G. C. S. E. (General Certificate of Secondary Education) or «0 level» (Ordinary level). After that students can either leave school and start working or continue their studies in the same school as before. If they continue, when they are 18, they have to take further examinations which are necessary for getting into university or college. Some parents choose private schools for their children. They are very expensive but considered to provide a better education and good job opportunities.

In England there are 47 universities, including the Open University which teaches via TV and radio, about 400 colleges and institutes of higher education. The oldest universities in England are Oxford and Cambridge. Generally, universities award two kinds of degrees: the bachelor's degree and the master's degree.
